SAFETY DATA SHEET

SECTION I - PRODUCT IDENTIFICATION

Product name	Atlas Cedar Organic Essential Oil
Synonyms and other names	Botanical Name: Cedrus atlantica
Recommended uses	Atlas Cedar Essential Oil has a number of wide-ranging applications and uses, including massage therapy and do-it-yourself cosmetics. Its sweet, woody scent makes it an excellent natural fragrance to add to soaps, natural perfumes, and homemade cleaning products.
Material uses	All essential oils should be used only after being diluted in a carrier oil. Do not take internally unless under the direct supervision of a qualified practitioner. Always perform a small patch test (with the diluted essential oil) before using on skin, to check for compatibility. We strongly advise caution when using essential oils around children and pregnant women.
Supplier	Coop Coco & Calendula 273 Rue Saint-Zotique E, Montréal, QC H2S 1L4
Emergency number	Poison control Centre: 1-800-463-5060

SECTION 2 - HAZARDS IDENTIFICATION

Product classification (WHMIS 2015) Irritant: Skin sensitizers
Dangerous for the environment

Hazards information May be fatal if swallowed and enters airways (H304)
Very toxic to aquatic life with long lasting effects (H411)

Other information Avoid release to the environment (P273).
Wear protective gloves / protective clothing / eye protection / face protection (P280).
If swallowed, call a poison control center or doctor immediately (P301 + P310).
Dispose of contents / recipients in accordance with current legislation (P501).

SECTION 3 - COMPOSITION/ INFORMATION ON INGREDIENTS

Chemical formula Complex natural substance (100% pure and natural), essential oil.
Agri-food product from organic farming certified by FR-BIO-01.

273 St. Zotique E.,
Montréal, Québec H2S 1L4

SAFETY DATA SHEET

Numéro de CAS 8023-85-6

Composants dangereux :	Numéro de CAS	Nom	%
	469-61-4	Alpha cédrène	<= 6,00 %

SECTION 4 - FIRST AID MEASURES

Eye contact Rinse immediately and abundantly (minimum 2 liters) by opening the eyelids under the tap of water. If possible, lift the upper eyelid and rinse. If irritation persists or any lesion appears, consult your ophthalmologist with the product.
For lens wearers: immediately flush eyes. The lenses will certainly fall during rinsing. If not, remove after rinsing. Do not put them back.
For soft lenses: discard lenses regardless of renewal. For rigid lenses: they can be reused after a professional cleaning at your optician. In all cases, do not put back a lens after the accident without notice of your ophthalmologist.

Skin contact Wash with plenty of water, change clothing if necessary. If irritation persists, or if any skin lesion is seen, seek medical attention.

Inhalation Remove affected person to fresh air. Keep the person warm and at rest. Call a physician if persistent or worsening adverse health effects occur. In case of unconsciousness place patient in a lateral safety position and call a physician immediately. Ensure good air circulation.

Ingestion Rinse mouth with water. Remove affected person to fresh air. Keep the person warm and at rest. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, keep the head down to prevent vomiting in the lungs. Call a physician if persistent or worsening adverse health effects occur. In case of unconsciousness, place patient in a lateral safety position and call a physician immediately. Ensure good air circulation.

Further information In general, in case of doubt or if symptoms persist, consult a doctor. Never give anything by mouth to an unconscious person. It is recommended that those who provide first aid have personal protective equipment. No action shall be taken involving any personal risk or without suitable training.

SECTION 5 - FIRE AND EXPLOSION DATA

Fire extinguishing media and procedures Carbon dioxide or powder fire extinguishers (ABC classes), Foam fire extinguishers.

Special remarks on fire/explosion hazards Possible production of toxic fumes in case of fire.

273 St. Zotique E.,
Montréal, Québec H2S 1L4
www.coopcoco.ca
514-270-0539

SAFETY DATA SHEET

Fire fighting media and instructions

Avoid breathing vapors and fumes. Use a mask if necessary. Do not attack fire with water: water instead of choking tends to feed the fire. Essential oils have the ability to float on water. The propagation of fire is then accelerated. To extinguish a nascent fire at the base of essential oil, use a specific ABC powder extinguisher (or equivalent). If the fire is not important, it can be smothered by covering with soil, sand or a blanket.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Protective clothing in case of spill and leak

Keep away any potential sources of ignition. Aerate the room. No smoking.

Environmental precautions

Avoid contamination of sewers, surface water and groundwater. Get rid of dishcloths, sponges, etc. used to mop up in accordance with current regulatory requirements.

Methods and material for containment and cleaning up

Large spills must be cleaned with inert absorbent materials which will then be swept and disposed in accordance with current regulations.

SECTION 7 - HANDLING AND STORAGE

Handling precaution

Avoid contact, do not inhale hot vapors, do not ingest. Prevent access to persons not required and not wearing protective clothing. Do not touch or walk through spilled material. Ensure adequate ventilation. Wear appropriate respiratory protection when ventilation is inadequate.

Do not eat, drink or smoke in areas where this product is handled, stored or processed. It is recommended that personnel wash their hands after use of the product and remove contaminated protective clothing and equipment before entering a meal or washroom.

Storage precaution

Keep in the original container or in another approved container that is made of a compatible material, hermetically sealed when not in use. Empty containers retain product residues, do not reuse.

Store in stainless steel or amber glass containers preferably. Labeling according to the regulations in place, refer to the table of incompatibilities of chemicals.

Store away from heat, light and in closed containers. Receptacles that have been opened must be carefully closed and kept in a vertical position to prevent leakage.

SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limits

Not regulated. No specific exposure limits for this material.

Engineering controls

Good ventilation should be sufficient to control operator exposure to airborne molecules.

Personal protection :

SAFETY DATA SHEET

Inhalation	Not necessary in well ventilated rooms (except special mention).
Skin	Waterproof gloves, resistant to essential oils and conforming to an approved standard, are recommended (nitrile rubber or polyvinyl alcohol).
Eye	Wear protective glasses is recommended.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Physical state and appearance	Slightly viscous liquid. Yellow to orange to brown.
Odor	Épicée, boisée.
Odor threshold	Not available.
pH	Not available.
Melting Point	Not available.
Boiling Point	Not available.
Flash point	>100°C
Evaporation rate	Not available.
Flammability	Not available.
Flammable limits	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	0,927 à 0,940 à 20°C
Solubility	Insoluble in water. Soluble in alcohol.
Water/oil dist. coeff.	Not available.
Auto-ignition temperature	Not available.

273 St. Zotique E.,
Montréal, Québec H2S 1L4
www.coopcoco.ca

SAFETY DATA SHEET

Decomposition temperature Not available.

Viscosity Not available.

SECTION 10 - STABILITY AND REACTIVITY DATA

Stability No significant changes in composition over time if the storage conditions described in Section 7 are met.

Reactivity This product is stable to shocks, vibrations and pressure under normal conditions of use. In the presence of light and heat, oxidation may occur.

Possibility of hazardous reactions None, according to knowledge under normal conditions of use.

Conditions of instability Do not heat with open flame. Do not expose vapors to flame or other sources of ignition. Do not smoke near the product. During product incorporation, the product must be kept at relatively low temperatures. In case of a rise in temperature.

Limit or prohibit hot surfaces, hot flames and gases, mechanically generated sparks and ionizing radiation. Periodically check your electrical installations. Avoid static electricity by connecting your metallic equipment to the ground. Protect your electrical installations against lightning.

Materials to avoid P.V.C.

Decomp. products No decomposition if used according to specifications.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute effects Not available.

Eye No known significant effects or critical hazards.

Skin No known significant effects or irreversible effects. May cause allergy.

Inhalation May cause allergy.

Ingestion May be fatal if swallowed.

Chronic effects Mutagenicity, Carcinogenicity, Reproductive Toxic, Target organ toxicity: No known significant effects or critical hazards.

SAFETY DATA SHEET

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity	Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Persistence and degradation	Not available.
Bioaccumulation	Not available.
Mobility in soil	Not available.
Other adverse effects	Not available.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal	Do not discharge into drains or waterways. Recycle or dispose of the product in accordance with current legislation, preferably by a collector or an approved company. Do not contaminate soil or water with waste, do not dispose of it in the environment. Empty the container completely. Keep the label on the container. Return to licensed disposer.
-----------------------	---

SECTION 14 - TRANSPORT INFORMATION

United Nations number	1169
Identification	Extracts aromatic, liquid
Classes of dangerous goods	Classe ADR/RID : 3 Classe IMDG : 3 Classe ICAO/IATA : 3
Packing group	III
Environmental hazards	Marine pollutant.
Bulk transport	Not concerned.
Special precautions	Not available.
